

# DAVID AND GOLIATH

The Israelites and the Philistines faced each other in battle. The Israelites had many brave men, but the Philistines had a huge giant named Goliath who stood nine feet tall. Goliath challenged the Israelites to send one man against him to decide the victory, but no one man could stand against the giant.

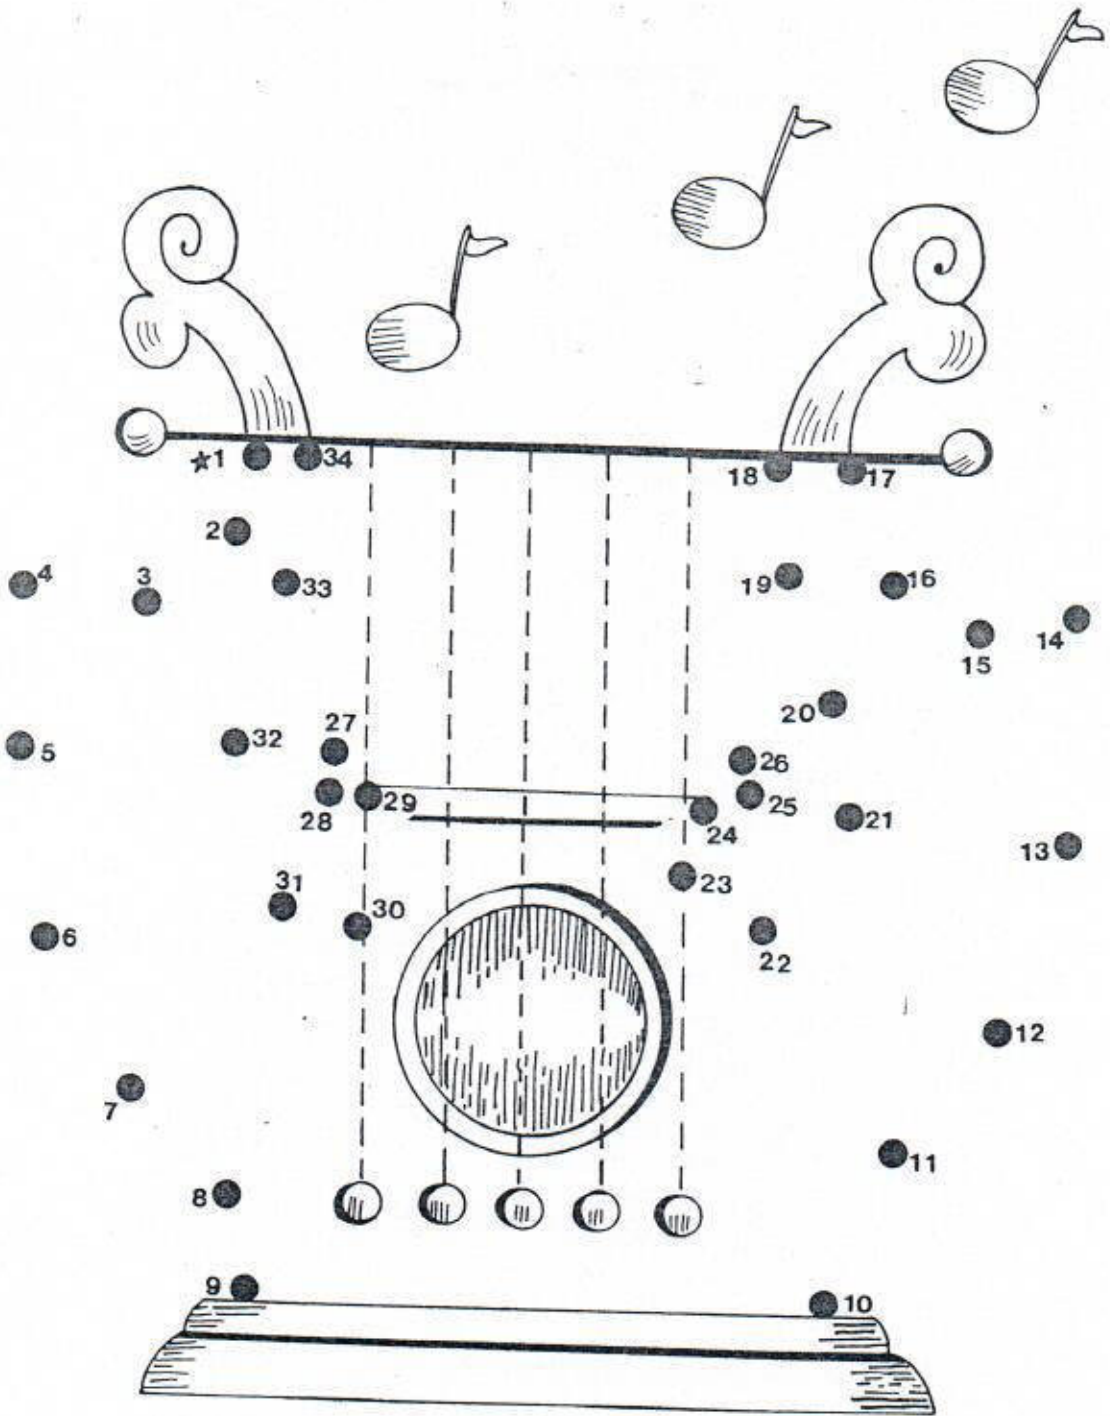

Then a shepherd boy named David came to bring food to his older brothers in the Israelite army. When he heard the giant's challenge, he demanded the right to fight. David knew that God was with him and with Israel.

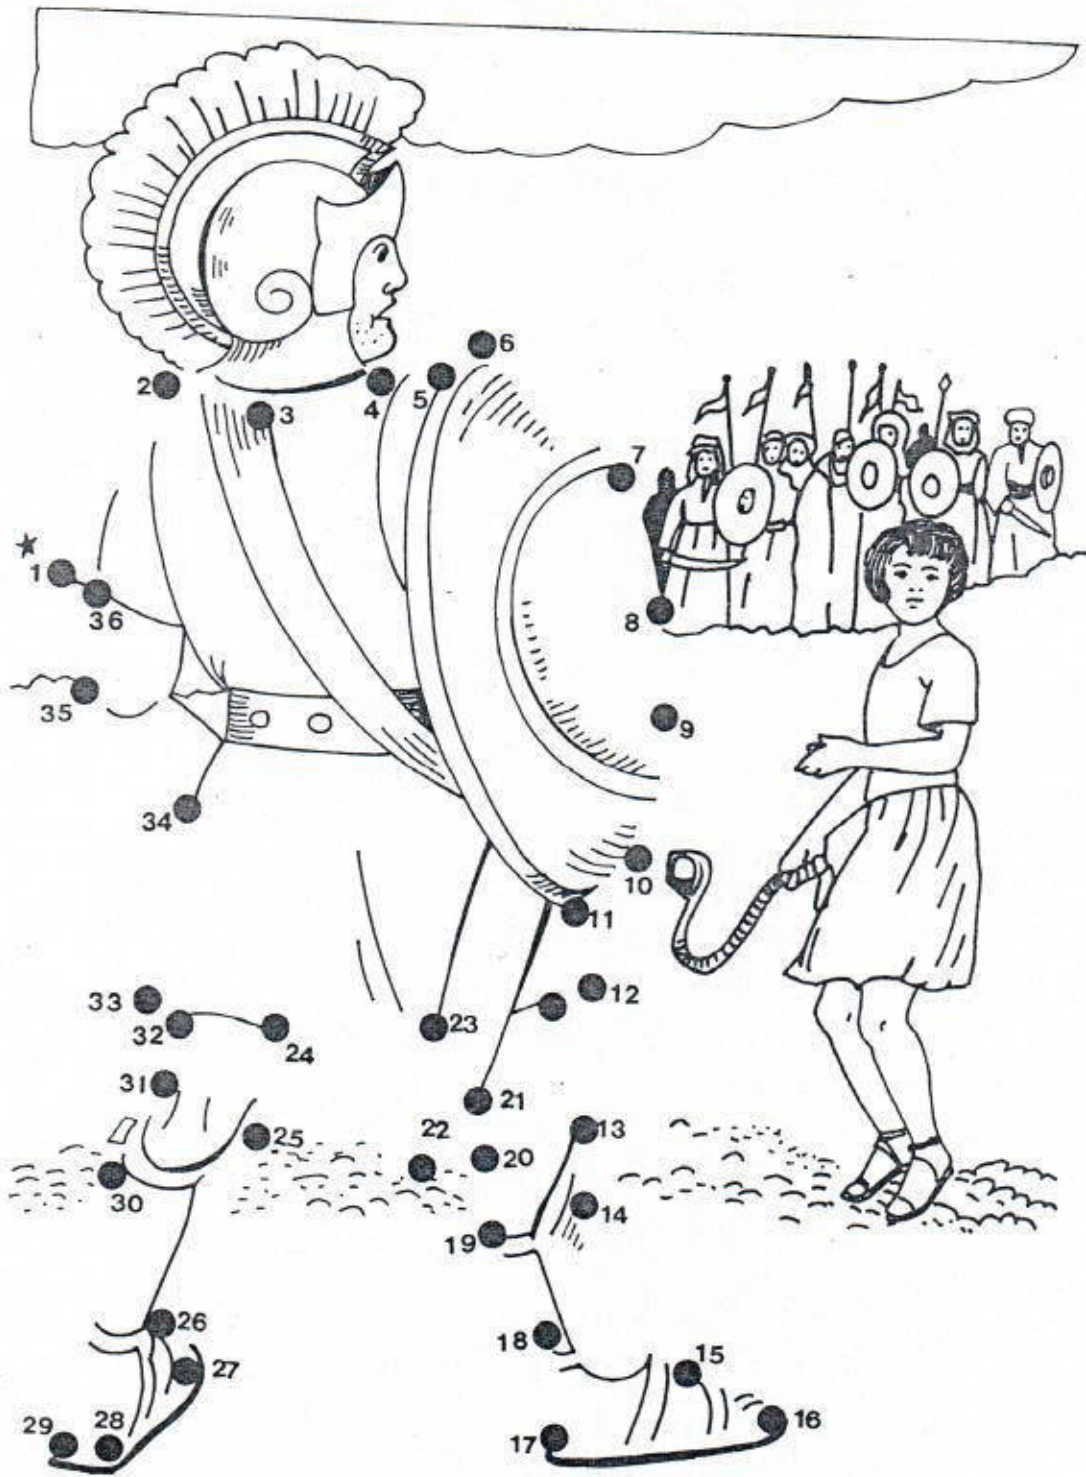

With only his slingshot and five smooth stones that he had scooped up, David faced Goliath. He killed Goliath with only one stone and used the giant's own sword to cut off his head.

David went on to become a warrior, poet, and the greatest king in Israel's history.
